**DRAFT—SUMMARY MINUTES  
February 22, 2016**

**I. Call to Order/Roll Call**

Meeting was held in City Hall cafeteria and called to order at 5:04 p.m. by Mayor Gillmor (Committee Chair). Council Ad Hoc Committee member Marsalli excused.

**II. Review Ad Hoc Committee Meeting Minutes**

Mayor Gillmor approved Summary Minutes of the January 11, 2016 Ad Hoc Committee Meeting.

**III. Old Business**

**A. Project Update – Reed & Grant Street proposed site for additional youth soccer fields.**

Parks & Recreation Director provided a presentation developed by LPA showing the site program and design elements and soliciting input. SCPAL, SCYSL & SCSporting, and Parks & Recreation Commission have all reviewed the schematic design and provided input. Discussion included: parking plan provides more spaces than YSP, approximately 215 parking spaces, that may change as the site plan is further refined based on input. City has been in contact with the two inholding property owners adjacent to the site and has started additional outreach to the area. The site program incorporates multiple field configurations to increase flexibility and accommodate younger players. The playground area provides additional space for families and a place for younger children between games. The building can incorporate PV and exterior lighting. Higher fencing heights are preferred. The Parks & Rec. Commission considered various types of synthetic turf and infill material recommending cork with plastic coating, and the addition of shock pad. The current design shows one field near dog park as natural grass and all remaining fields synthetic. The design team will continue to address site constraints in the design development review process. Committee Chair, Gillmor direction to move forward to Council with schematic design and costs, and move forward to purchase property from SVP.

**B. Project Update – Youth Soccer Park post SB50 Restoration & future CIP Project.** All SB50 equipment has been removed from YSP. Impact attenuation tests will be completed and Field #2 groomed. NFL did not use field #3; fields 1 & 3 are to be replaced. CIP Project -- November-February was a preferable timeframe for SCYSL & PAL for initiation of the 5-8 months construction Project. Chair suggested two separate seating stands. Parking lot and restrooms will need code upgrades. Discussion regarding alternative of converting field #1, rather than field #3 from natural grass to synthetic turf due to additional sunlight. Designs for Field 2 and 3 are currently underway.

**C. Public Input- Potential synthetic fields at Washington Park (baseball) and Marsalli Park (soccer/baseball) from PAL and SCYSL.** Matter was referred to SCPAL and SCYSL to discuss the pros and cons and come back with input for the next meeting.
